

Michigan Department of Transportation

Construction Project Information Sheet

Date: February 26, 2020
 Office: MDOT Cadillac Transportation Service Center
 Status: New
 Roadway: M-91
 CS & JN: Control Section 59032 & Job Number 125967
 Region/County: Grand/Montcalm County
 Closest City: Greenville
 Exact Location: M-91 from just south of Peck Road northerly to just north of Colby Road
 Project Length: 3.82 Miles
 Nature of Work: Hot mix asphalt cold milling and resurfacing, NB offset right turn lane at Peck Road, extend the center left turn lane north of Peck, construct center left turn lane north & south of Colby Road, joint repairs, safety & drainage improvements, and pavement markings.
 Start Date: April 13, 2020; with tree removals scheduled for the first week of March.
 Est. Completion: July 2020
 Traffic Impacts: Traffic shall be maintained by detours, 1 alternating lane open under flag (traffic regulator) control, or shoulder closures. No Sunday work.
 Total Cost: \$4,129,000.00
 Customer Benefit: The original concrete road was constructed in 1925. It has since been widened, resurfaced and had joint repairs. This project will improve traffic flow, safety, ride quality, and drainage.
